

# **CLIMATE SMART AG & CARBON LITERACY**

## **PAID STUDENT INTERNSHIP**

The CAFES Center for Sustainability has received funding to develop educational materials and events on “**Climate Smart Agriculture**” this year. Among other things this will involve:

- Development of a “carbon literacy” educational training module for the public
- Conducting trainings on campus and in the community using the module
- Researching “climate smart agriculture” and carbon cycles
- Development of web-based learning resources
- Hosting of “carbon farm planning” professional workshops
- Coordinating activities with other on-campus sustainability initiatives
- Working with our Diversity and Inclusivity Office to reach new audiences
- Outreach of all of the above

We are seeking a highly-motivated student with interest in this arena to work with the Center over the coming year to help us execute the above initiatives as part of a **paid internship**. This is a part-time position beginning in October 2016 and ending in June 2017 for an average of 5-8 hours per week during that time period. Hours are flexible.

**Applicants must:**

- Be an enrolled student during the 2016-17 academic year
- Possess excellent communication (writing *and* public speaking) skills
- Possess good organizational skills
- Be highly-motivated and capable of working both independently and with a team
- Be web-literate with basic word processing and PPT skills

**Desired qualities:**

- Experience and/or interest in sustainable agriculture and soil health
- Experience with event management/coordination
- Experience with outreach and public relations
- Upper-classperson or grad student preferred

To apply, please send a resume and cover letter to the Center for Sustainability at [cfs@calpoly.edu](mailto:cfs@calpoly.edu). Please put “Carbon Intern” in the message title. The position will remain open until filled.
