

SOIL HEALTH EDUCATION

STUDENT COMMUNICATIONS INTERNSHIP

The CAFES Center for Sustainability has received funding from USDA SARE (Sustainable Agriculture Research and Education) to develop educational materials and events on Soil Health this year. Among other things, this will involve hosting special guest speakers on the topic at Cal Poly, hosting of in-field professional development workshops, the development of web-based learning resources and the production of a **six-part video series**.

We are seeking a highly-motivated student with interest in this arena to work with the Center over the coming year to help us execute the above initiatives as part of a **paid internship**. Specifically, this will involve:

- Helping to coordinate the production of the YouTube-style video series
- Filming of select soundbite video segments
- Compiling, organizing and editing video segments
- Researching and cataloging other Soil Health resources
- Development of an online resource for Soil Health education
- Assistance in hosting Soil Health events and workshops
- Facilitating outreach on all of the above

This is a part-time position beginning in October 2016 and ending in June 2017 for an average of 5-8 hours per week during that time period. Hours are flexible.

Applicants must:

- Be an enrolled student during the 2016-17 academic year
- Possess good communication and writing skills
- Be highly-motivated and capable of working both independently and with a team
- Have experience filming for social media purposes
- Be web-literate

Desired qualities:

- Experience with video editing
- Website management skills
- Experience and/or interest in sustainable agriculture
- Upper-classperson or grad student preferred

To apply, please send a resume and cover letter to the Center for Sustainability at cfs@calpoly.edu. The position will remain open until filled.
